

Plug & Charge

for more flexibility and convenience

High flexibility

in billing and invoicing

Optional add-on services

for more convenience

- Supplement to Bosch charge point management
- Support for in-vehicle integration to optimize the user experience
- Provisioning of the invoice after charging (B2B2C) via the app or B2B interface
- Everything from a single source certificate management and provision for mobility providers, charge point operators, and car manufacturers
- Add-on services: Multiple-contract handling for more price transparency, automatic certificate creation and installation directly at the factory for rental, car sharing or retail shops
